## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-8,10-26 and 29 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches a liquid crystal display device comprising various elements as claimed, more specifically, as the following:

a portion of one edge of the sheet material adjacent to the light source is not directly under the non-transparent film or the non-transparent film does not overlap a portion of one edge of the sheet material adjacent to the light source that is the black film (52) as shown in Fig.3 [claims 1, 15, 25 and 26].

The closest references AAPA, US 5,739,880 (Suzuki et al) and US 6,147,724 (Yoshii et al) discloses that a liquid crystal display device with back light and light shielding films formed in the peripheral of the LCD and having black film to prevent the back light from leakage, but the prior art of record do not disclose that the edge of the sheet material (protection layer, prism layer, diffusion layer) adjacent to the light source is not directly under or overlap the black film as claimed in the claims 1, 15, 25 and 26 as shown in Fig.3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Qi whose telephone number is (571) 272-2299.
